General Information Provisional

Meeting Location:

All of the Scientific Sessions will take place at the Toranomon Hills Forum.

Address:

Toranomon Hills Forum
Mori Tower 5th Floor, 1-23-3 Toranomon, Minato-ku,
Tokyo 105-6305, Japan

Registration:

Registration Fee: Regular 10,000 JPY, Student 1,000 JPY (with verification card)

Method of Payment: Japanese Yen (JPY), Cash Only!

- ▶ Payment will only be acceptable at the Registration Desk during the Meeting.
- ▶ All payments must be made in Japanese Yen. No other currencies are acceptable.
- ▶ Registration fees entitle each participant admission to all scientific sessions.
- ▶ Program & Abstracts Book: 3,000JPY

Registration Hours

Thursday, July 28	09:00am – 17:00pm
Friday, July 29	08:00am – 16:00pm
Saturday, July 30	08:00am – 15:00pm

Announcement of Annual Meeting

Japan Society of Gene and Cell Therapy

The 22nd Annual Meeting (JSGCT2016)

Gene Therapy

Heading Toward Standard Therapy

President Toya Ohashi

July 28 (Thu.) – 30 (Sat.), 2016 Tokyo

Venue Toranomon Hills Forum

<http://jsgct2016.kita-media.com/>

Welcome to Tokyo 2016

Message from the President

Dear colleagues,

It is my great pleasure to announce the 22nd JSGCT Annual Meeting being held on July 28 to July 30, 2016 at the Toranomon Hills Forum, Tokyo, Japan.

The field of gene therapy has experienced a long time of slow progression until recently the news of “Glybera” being approved by regulatory authorities in the Western world to be the first medication for patients with Lipoprotein Lipase Deficiency. Along with other reports of gene therapy making highly meaningful effects on diseases such as adrenoleukodystrophy, metachromatic leukodystrophy, Wiskott-Aldrich Syndrome and adenosine deaminase (ADA) deficiency, these matters represent major breakthroughs and I, as a specialist in genetic diseases for many years, have no choice but to think that this field has definitely come to an important turning point to move out of this stagnation. Significant results achieved in domestic clinical research and clinical trials also may have made an influence on the cumulative total number of more than 500 participants at the 21st Annual Meeting held in Osaka this July.

Additionally to the above, the 22nd JSGCT Annual Meeting will be built upon the theme of “**Gene Therapy: Heading toward Standard Therapy**”, designated to bring into focus that gene therapy being a standard therapy for intractable and rare diseases, and also it will be the first meeting after the renewal of the society’s name to “**Japan Society of Gene and Cell Therapy**” in order to expand our collaborations with other international societies.

At this Meeting, we are planning Main Symposium, 6 Scientific Symposiums, Asian Session and Technical Seminars, and privileged to have many distinguished researchers such as Dr. Cynthia E. Dunbar (NIH, President-Elect of ASGCT), Dr Alessandra Biffi of The San Raffaele Telethon Institute for Gene Therapy (TIGET) and more.

I truly hope that the 22nd JSGCT Annual Meeting will be stimulating and enjoyable for all participants and look forward to welcoming many of you at Toranomon Hills Forum, Tokyo 2016.

Sincerely yours,

Toya Ohashi M.D., Ph.D.
President of the 22nd JSGCT- 2016

Professor,
Division of Gene Therapy, Research Center for Medical Sciences
Department of Pediatrics
The Jikei University School of Medicine

Congress Information

Date: July 28 (Thu.) – 30 (Sat.), 2016

Venue : Toranomon Hills Forum

Toranomon Hills Mori Tower 5th Floor,
1-23-3 Toranomon, Minato-ku, Tokyo 105-6305

Members of the Committee
Meeting President: Toya Ohashi

Chairman of the BOD: Yasufumi Kaneda
Vice Chairmen of the BOD:

Ryuichi Morishita, Masafumi Onodera,
Tomoki Todo

Scientific Committee:

Akihiro Kume, Ko Mitani, Hiroaki Mizukami
Keiya Ozawa, Masatoshi Tagawa,
Kenzaburo Tani, Masato Yamamoto,
Yoshikazu Yonemitsu

International Committee:

Nori Kasahara, Hiroyuki Nakai,
Masato Yamamoto

Main Conference Day 1

Thursday, July 28

Opening remarks President Toya Ohashi
Main Symposium I “Current Gene Therapy”
International Symposium “Genetic Diseases”
Plenary Session, Oral Sessions, etc
Congress Dinner Buffet

Main Conference Day 2

Friday, July 29

Main Symposium II “ASGCT, ESGCT&JSGCT”
International Symposium “Cancer I”
Technical Seminar (Vector:Adeno, AAV, HSV)
Oral Sessions, Poster Session, etc
Banquet

Main Conference Day 3

Saturday, July 30

Scientific Symposia
(Acquired Disease, Cancer II, Neuroscience)
Asia-Pacific Session
Public Forum
(Current Gene Therapy, Genome Editing)

A five-minute walk from Toranomon Station

Announcing the opening of Tokyo’s exciting new landmark
on the 4th and 5th floors of Toranomon Hills
